What's new in the 2.5T Excavator:

- New engine: KSD 1403NA
- New all-steel bodywork.
- Hoses routed through the boom
- Redesigned cab
- Automated 'health check' at start up

2.5T Mini Excavator and KSD 1403NA: The Perfect Match

TOUGH TO BEAT FOR PERFORMANCE

The 2.5T 25Z-1 mini excavator is powered by performance enhancements across the hydraulics, tracking, attachments and above all, the brand-new Kohler engine.

KSD 1403NA

- 5% reduction in fuel consumption
- High engine torque density
- Great engine transient response

TOUGH TO BEAT FOR COST OF OWNERSHIP

Built into these mini excavators is a series of features designed to keep running costs as low as possible, making the 25Z-1 a long-term cost-effective choice.

KSD 1403NA

- 500-hours service interval
- No after treatment to meet Stage V and Tier Final
- Auto stop and idle functions

2.5T Mini Excavator and KSD 1403NA: The Perfect Match

TOUGH TO BEAT FOR EASE OF USE & COMFORT

The new JCB mini excavator is a great place to work. A redesigned cab and a host of finishing touches make the Generation Stage V models more comfortable than ever before.

KSD 1403NA

- NVH reduction → maximises excavating and lifting duties with low noise and vibration.
- Electronic engine able to offer extend functions

JCB and Kohler: A Long History of Success

Strong and solid partnership started in 2012

- Started from Stage IIIB/Tier 4 Final
- Continuing with the Stage V
- Ready for the next challenges

More than 20 machine models equipped with Kohler KDI Engines

- Loader
- Compact Excavators
- Earthmovers
- Skid steer loaders
- Backhoe
- Lifting boom
- Generators

Much more is still to come...
