KOHLER. | Engines

Engines Company Profile

Resilient Together

Kohler Energy is an *energy resilience leader*, delivering stability and confidence to individuals, businesses, and communities.

Through our legacy of excellence, we're evolving to meet the demands of tomorrow. And together, we're building resilience that has staying power.

Kohler Engines has a strong,
inspiring guiding principle

To be on the *leading edge*
of technology and innovation with the
most advanced engine solution
in the market.

The Engines Business

- Founded in 1920
- As part of the Energy Group, the Engines Business is established as an independent business with **Platinum Equity** as Majority Interest Partner
- A unique product offering of diesel, gasoline and hybrid, single and multi cylinder engines up to 112 kW (150 hp)
- Worldwide Customer support network
- Global manufacturing footprint
- Leader in Europe and in North America and quickly growing in China and India
- Over 2,000 associates deployed globally

About the partner

Platinum Equity

KOHLER. | Energy

Platinum Equity is an experienced partner in the industrial products sector with a strong desire to further grow Kohler Energy and drive value in the category.

Background

- Platinum Equity is a global investment firm with approximately \$47 billion of assets under management. Kohler selected Platinum Equity due to the firm's deep operational expertise and successful track record with carve-out transactions.
- Platinum Equity will strengthen Kohler Energy's position as an industry leader, helping redefine energy resilience and delivering next-generation clean energy solutions for our customers.

Business Portfolio

- Platinum Equity has 28 years of experience acquiring and operating global businesses that have been part of large corporate entities. In recent years, the firm has acquired businesses from firms like Ball Corporation, Caterpillar, Emerson Electric, Ingersoll Rand and Johnson & Johnson, among others.
